## DIRECTIONS FOR USE

### USE INSTRUCTIONS

#### For Established Lawns:

For best results, apply GreenView® Lawn Fertilizer at the rate of 2.5 lbs. per 1,000 sq. ft. in early spring and early fall. If desired, application may be repeated every 90 days throughout the growing season. Water well after each application to make nutrients readily available to your lawn.

**DO NOT** apply to frozen turf.

Apply only to actively growing turf. **DO NOT** exceed 3.2 lbs. of total nitrogen per 1,000 sq. ft. annually.

**In Pennsylvania, Maryland, and New Hampshire: DO NOT** exceed 0.9 lbs of total nitrogen per 1,000 sq. ft. per application.

Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices.

Check with your county or city government to see if there are local regulations for fertilizer use.

**Florida Applications:** 4 annual feedings with the exception of centipede grass (2 feedings in the north and 4 feedings in the central and south). This package applies 2.5 lbs. of product per 1,000 sq. ft.

**For New Lawns:** Upon initial seeding use a starter fertilizer such as GreenView Starter Fertilizer. Follow starter fertilizer application instructions.

**DO NOT** apply near water, storm drains or drainage ditches.

**DO NOT** apply if heavy rain is expected.

Apply this product only to your lawn and sweep any product that lands on the driveway, sidewalk or street, back onto your lawn.

**DO NOT HAND SPREAD.**

**KEEP OUT OF REACH OF CHILDREN AND PETS.**

**WARNING:** To avoid danger of suffocation, keep this bag away from babies and children. **DO NOT** use this bag in cribs, beds, carriages, or playpens. This bag is not a toy.
