CRABGRASS CONTROL +LAWN FERTILIZER

NOTICE: Read the entire label. Use only according to label directions.
Before buying this product, read the Warranty Section elsewhere on this label. If terms are not acceptable, return the unopened container at once.

For control of crabgrass and control or suppression of many other listed annual grass and broadleaf weeds in established lawns and ornamental turf.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Causes moderate eye irritation. Avoid contact with eyes or clothing. Use Protective eyewear when using Battery Powered Spreader and Battery Powered Cap. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

First Aid
If in eyes: • Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.
If inhaled: • Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
For Emergency Medical Treatment Information call (888)208-1368.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and highly toxic to other aquatic organisms including oysters and shrimp. Use with care when applying to turf areas adjacent to any body of water. Drift and runoff from treated turf may adversely affect aquatic organisms in adjacent aquatic sites. **DO NOT** apply when weather conditions favor drift from treated areas. To protect the environment, **DO NOT** allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather will help to ensure that wind does not blow pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn will help to prevent run off to water bodies and drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all Directions for Use carefully before applying.

How This Product Works

Not for use on turf being grown for sale or other commercial use as soil, or for commercial seed production, or for research purposes. GreenView Crabgrass Control Plus Lawn Fertilizer can be applied up to 4 weeks later than other crabgrass preventers and provides up to 4 months of crabgrass control.

GreenView Crabgrass Control Plus Lawn Fertilizer provides preemergence control of crabgrass and control or suppression of other listed weeds when applied prior to their germination. In addition, this product provides postemergence control of seedling crabgrass after germination and emergence. Postemergence control is limited to crabgrass only, but is effective up to 4 weeks after crabgrass has germinated. This generally corresponds to the time when crabgrass seedlings first become visible.

DO NOT apply this product later than 4 weeks after crabgrass germination.

Apply this product only to turfgrass species listed on this label. The following turfgrass species are tolerant to this product when applied as directed:

Cool-Season Grasses	Warm-Season Grasses
Bentgrass, creeping Bluegrass, Kentucky Fescue, fine Fescue, tall Ryegrass, perennial	Bahiagrass Bermudagrass Buffalograss Carpetgrass Centipedegrass St. Augustinegrass Zoysiagrass

Restrictions

- **DO NOT** use clippings from treated turf for mulching around vegetables or fruit trees.
- **DO NOT** allow people or pets to enter treated area until dust has settled.
- **DO NOT** apply more than 6.0 lbs. of this product per 1,000 sq. ft. per application and no more than 18.0 lbs. of this product/1,000 sq. ft. per year (equivalent to 0.5 and 1.5 lbs. of active ingredient per acre, respectively).
- In the state of New York, **DO NOT** exceed 3.0 lbs. of this product per 1,000 sq. ft. per year (equivalent to 0.25 lb. of active ingredient per acre).
- **DO NOT** apply this product later than 4 weeks after crabgrass germination.

Use Precautions

GreenView Crabgrass Control Plus Lawn Fertilizer must be applied only to lawns and ornamental turfgrasses that are well established. For newly established lawns, use the initial application of this product only after turfgrasses have developed a vigorous root system, uniform stand, and received at least two mowings following seeding, sodding, or sprigging. **Exception:** In newly established lawns of Kentucky bluegrass, perennial ryegrass and/or tall fescue, this product may be applied two weeks after the first sign of germination.

- Use of this product on lawns and ornamental turfgrasses that are not well established, or weakened by stress due to mechanical operations, pests, excessive temperatures, or lack of moisture may result in turfgrass injury.
- For best results, cultural practices that disturb the soil, such as core-, spike-, or hydroaerification, and verticuting, are to be done before application of this product. **DO NOT** apply this product until turfgrass has recovered from the mechanical injury caused by these cultural practices.
- Reseeding, Overseeding, or Sprigging: Reseeding, overseeding, or sprigging of areas treated with this product within 10 weeks after a single application of this product or within 16 weeks after a split application program totaling 6.0 lbs./1,000 sq. ft. (0.5 lb. active ingredient per acre) or more may inhibit the establishment of desirable turfgrasses. When reseeding, overseeding follow proper cultural practices for seedbed preparation, seeding, irrigation and fertilization.

Weeds Controlled Or Suppressed

GreenView Crabgrass Control Plus Lawn Fertilizer will provide control of crabgrass and control or suppression of other listed grass and broadleaf weeds when applied prior to their germination.

Grasses	Broadleaf Weeds
Barley Barnyardgrass Bluegrass, Annual Brome Crabgrass, Large Crabgrass, Smooth Crabgrass, Southern Crowfootgrass† Dallisgrass Goosegrass Foxtail, Green Foxtail, Yellow Kikuyugrass† Oats, Wild Ryegrass (Annual & Perennial) Sandbur Smutgrass	Bittercress† Carpetweed Chickweed† Geranium, Carolina† Henbit Knockweed, Prostrate Lespedeza, Common† Marestail Medic, Black Mustard Oxalis, Buttercup Pineappleweed Pigweed, Redroot Parsley-Piert† Purslane, Common Rocket, London Shepherdspurse Speedwell, Corn† Spurge, Garden Spurge, Prostrate Spurge, Spotted Woodsorrel, Creeping Woodsorrel, Yellow

† = Suppression only

How to Apply

- Apply within a few days of mowing.
- Delay mowing again, for a few days after application.
- The most effective weed control occurs when this product is activated by rainfall or irrigation, so if rain isn't in the forecast, water it in thoroughly.

SPREADER SETTINGS

These settings were calibrated and field tested. However, age and condition of spreader, speed of operation, and evenness of terrain may require slightly different settings for desired coverage.

BROADCAST SPREADERS:

Scotts Turf Builder EdgeGuard	4.25
Scotts Whirl Hand-Powered	3
Scotts Elite	4.5
Sta-Green 32lb Precision	4.5
Agri-Fab 45-0463 130 lbs. Tow-Behind	3.5

DROP SPREADERS:

Scotts Turf Builder Classic Drop	5
Yardworks 75lb	4
Agri-Fab 175 lb Tow Behind 45-0288	3.5

The above spreader settings are approximate.
To check your spreader: 1 lb. of material covers approximately 370 sq. ft. (2.7 lbs. of material per 1,000 sq. ft.).

Note: If spreader model does not appear above please call toll free 800-233-1067, 8 am - 5pm ET, Monday - Friday for additional model settings.

How Much To Apply

GreenView Crabgrass Control Plus Lawn Fertilizer will provide up to 4 months of crabgrass control when applied according to label directions. The actual length of control will vary depending on use rate, weather conditions, condition of the turfgrass, intensity of weed pressure, and the location or "Region" within the United States where this product is being applied.

Refer to the map below to determine the region of the U.S. that includes your location. Use the table below to determine the amount of GreenView Crabgrass Control Plus Lawn Fertilizer to apply in your location based on the desired length of weed control or need for postemergence crabgrass control.

Amount of GreenView Crabgrass Control Plus Lawn Fertilizer to Apply (Pounds of product to apply per 1,000 square feet of turfgrass †)			
— LENGTH OF CRABGRASS CONTROL —			
Region of U.S.	2-3 months	3-4 months	Early Postemergence Control
North	1.5 lbs./1,000 sq. ft. (0.128 lb. a.i./acre)	2.1 lbs./1,000 sq. ft. (0.174 lb. a.i./acre)	2.7-6.0 lbs./1,000 sq. ft.†† (0.22-0.5 lb. a.i./acre)
South	2.3 lbs./1,000 sq. ft. (0.192 lb. a.i./acre)	2.7-3.1 lbs./1,000 sq. ft.††† (0.22-0.256 lb. a.i./acre)	2.7-6.0 lbs./1,000 sq. ft.†† (0.22-0.5 lb. a.i./acre)

† 1,000 square feet equals an area 100 feet X 10 feet or square area of about 32 feet on a side.

†† Use the higher rate in rate range in areas of high weed pressure or for increased length of control.

WHEN TO APPLY

Knowing when to apply crabgrass preventer is the primary key to success. It's all about the timing!

Spring

- Crabgrass seeds begin to germinate when the soil temperature consistently reaches 55 to 60°F. This coincides approximately between forsythia and lilac blooming. Provides post emergent control of crabgrass up to 4 weeks after germination. (When crabgrass seedlings are at 3-leaf stage growth and first visible within the lawn)
- This product does not control crabgrass at later growth stages.
- Suppresses other listed weeds when applied prior to germination.
- **DO NOT** apply this product later than 4 weeks after crabgrass germination
- Control or suppression of other grass and broadleaf weeds* (as listed).
- This product must be applied as a pre-emergent treatment, prior to weed germination and emergence to be effective.
- Only crabgrass is controlled in a post-emergent stage, up to 4 weeks after germination.

*See Use Directions for complete list of treated weeds.

Late Summer to Early Fall

- This product can also be applied from late summer through early fall.
- When applied in the fall, a second application of this product must be made the following spring.
- When applying in the fall, **DO NOT** reseed, overseed or sprig within 12 weeks after application.

STORAGE AND DISPOSAL

DO NOT contaminate water, food or feed by storage and disposal.
Pesticide Storage: Store this product only in its original container in a cool, dry, locked place out of the reach of children and animals.
Pesticide Disposal and Container Handling: Nonrefillable container. **DO NOT** reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY

NOTE: To the extent consistent with applicable law, Buyer assumes all responsibility for safety and performance if this product is not used according to the directions.

Lebanon Seaboard Corporation guarantees you will be satisfied with the performance of this product when used as directed, or your money back. If not satisfied, describe the nature of your problem and simply send proof of purchase to Lebanon Seaboard Corporation, 1600 East Cumberland Street, Lebanon, PA 17042.
